

Attend an Early Earth Day Odyssey stop near you for a unique chance to experience Compressed Natural Gas (CNG) and NEV vehicles! The event will begin with a 15-minute video, "Journey to the ZONE." Be prepared to ask questions and get involved in the gathering, and see both a Columbia MEGA NEV, produced in Reedsburg, Wisconsin and a Honda Civic GX CNG, produced in East Liberty, Ohio.

Bring your friends! Feel free to RSVP to chris-hybridguru@centurytel.net or (608) 784-6433.
